

Park bikes in the motorcycle bays.

Park cars around where you see the SERV logo (where the non-emergency ambulances and taxis etc are parked).

Notice where the stairs from the LG to the main entrance level are.

Delivery to St Thomas' Hospital

- On arrival at St Thomas' Hospital drivers should enter the hospital from Lambeth Palace Road (marked IN) and proceed to the motorbike bays in the car park – cars are best left outside the Lambeth Wing, where the non-emergency ambulances park (make sure they are placarded as this is what Security expect).
- Enter the North Wing and proceed to the lifts and take the lift to the 5th Floor. If arriving after 22h00 the doors will be locked and then the bell will need to be pressed to call security who will open the doors remotely. In the event that you cannot get in that way, behind you are the stairs up to the ground level walkway. From the top of these go in the main entrance, turn right past the M&S food and ATM coffee shops and take a left to the lifts.
- Once at the 5th Floor take the door marked GSTS Pathology and go to Reception where someone will give access to the Laboratory. The doors will be locked after 20h00 so please press the buzzer to the right hand side of the door and a member of the specimen reception staff will let you in. If they do not open the inner door to the laboratory area please just knock on this door and wait for a member of BMS staff to open the door.
- Exit the laboratory area by pressing the green button on the left hand side and the outer door has a green button to the right hand side.
- When leaving take the lift to the **ground** floor and exit via the main entrance. Stairs to the lower ground level are 20 metres ahead of you on the left.
