

# Darent Valley Hospital

**Park with care**

**Route in**

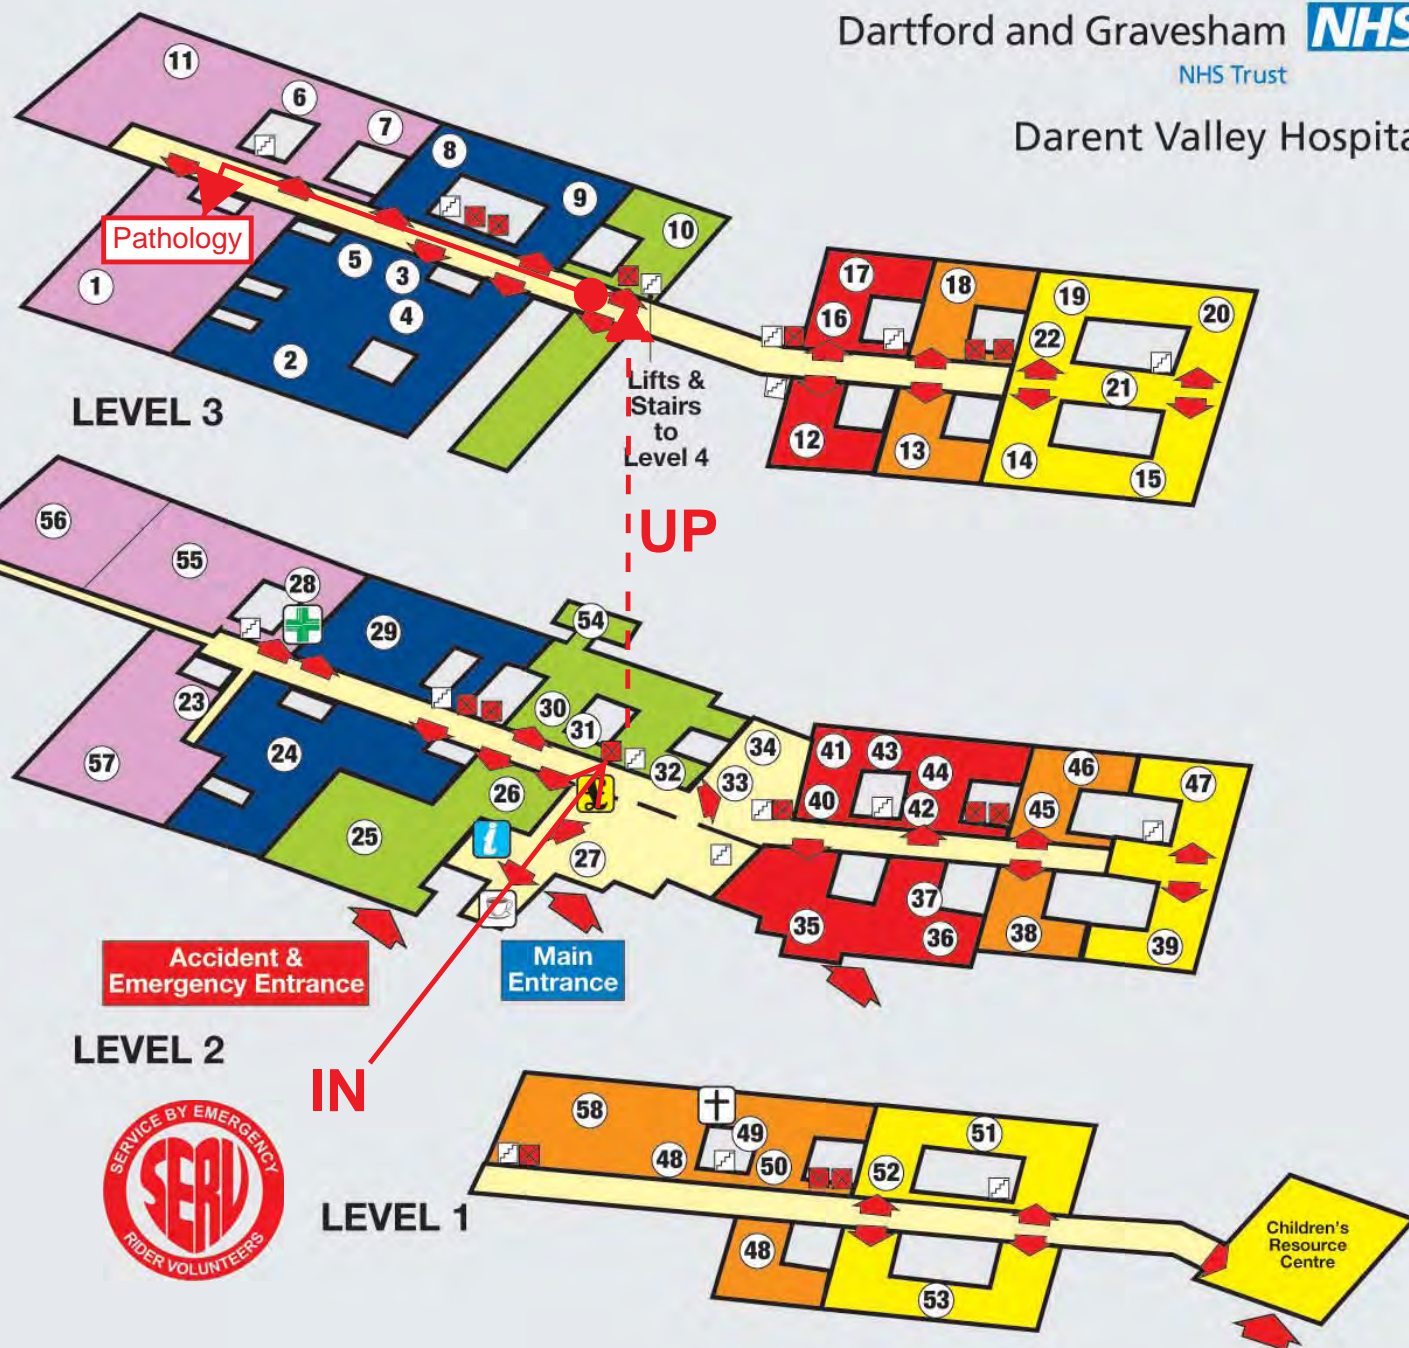

- Park outside the main entrance where the day ambulances park.
- Ensure you do not cause an obstruction and it is obvious that you are delivering blood.
- Use the main entrance.
  - If the doors are open inform Security at the desk that you are delivering blood.
  - If the doors are locked at night, attract the attention of Security at the desk inside by ringing the bell on the glass to the left hand side of the doors and they will let you in.
- Make sure Security call Pathology to let them know you are coming.
- Through the entrance there are stairs and lifts straight ahead of you.
- Go to Level 3 (the entrance is on Level 2) then follow the signs for Pathology at ceiling level along the corridor.
- The entrance to pathology is a pair of double doors on the left with a bell push on the left hand side - they are reasonably quick and will usually be waiting outside for you.
