Richard Bright	G	
Secombe	G	

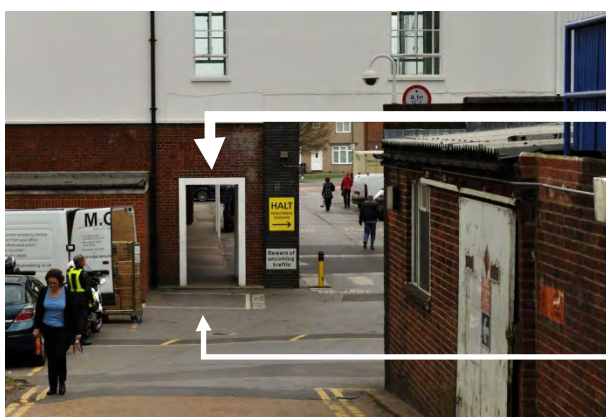

Pathology is on the first floor of D Block, which is accessible using the link on level 1.
The **solid** red arrows show the route to follow, then there are directions overleaf.

from Wrythe Lane the entrance to St Helier is immediately after this wall...

...and looks like this

drive around behind the hospital – see overleaf – until see this entrance as you come down the hill

there is a drop-off space outside and more parking in the same area

walk inside and take the stairs (C) to the 1st floor

on the 1st floor look to your right and you will see a telephone next to the cashier's window

dial 2203 or 22812 for the laboratory or dial 2000 & ask the operator to contact the haematologist

looking back the way you came past the stairs you will see the closed double doors (open in the picture) where you will make your delivery
